

Pratyay Pratim Borah

✉ pratyayborah2005@gmail.com  /pratyaypratimbora  /PratyayPB  Portfolio

Skills

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, HTML5, CSS3, Tailwind, Shadcn/ui

Backend: Node.js, Express.js, GraphQL, Authentication & Authorization (JWT/OAuth), Clerk, Trigger.dev (Background Jobs & Asynchronous Workflows)

Databases: PostgreSQL, MySQL, MongoDB, Prisma ORM, Neon (Serverless Postgres)

Tools & Testing: Vercel, Cloudflare, Git, GitHub, Lighthouse (Web Performance & SEO Auditing), Jest, React Testing Library, Postman

AI & LLM Integration: Google Gemini API, Google Antigravity (Agentic IDE), GitHub Copilot, Claude & ChatGPT for Development, Prompt Engineering

Projects

Vaultex – Cloud File Management System | *Next.js, React, TypeScript, Tailwind CSS, Appwrite*

- Developed a responsive file management interface for uploading, organizing, searching, and sharing files securely.
- Optimized search functionality using debouncing, reducing unnecessary API requests and improving application responsiveness.
- Implemented intuitive storage analytics and user-friendly interactions to enhance overall user experience.

Experience

Full Stack Developer – CodeMate Club

Mar 2026 – Present

- Designed and built responsive UI for multiple application modules, migrated the entire platform from legacy HTML/CSS/JavaScript to a modern React/Next.js architecture.
- Architected and built an admin dashboard for application-wide CRUD operations and designed the PostgreSQL database schema to support structured and scalable data management.
- Deployed and optimized the production application, migrating from Vercel to Cloudflare, improving web performance with Chrome DevTools, and validating functionality through Vitest and Postman. Add backend optimization stuff here (eg: Caching, Debouncing, etc)

Education

BS in Computer Science

North Eastern Hill University (NEHU)

Minor in Mathematics

CGPA: **8.45/10**

Aug 2023 – July 2026
